Overall Score : 10/10 (Promoted)

Coding Test

Completed on : 15-Nov-2024 06:08 PM

- Write a program to return words to any given number ?(Ex. for input 150 output has to be One hundred fifty only)

Marks Scored : 5

```
class NumberToWordsConverter:
    def __init__(self):
        # Define words for different ranges
        self.units = ["", "One", "Two", "Three", "Four", "Five", "Six", "Seven", "Eight", "Nine"]
        self.teens = ["Ten", "Eleven", "Twelve", "Thirteen", "Fourteen", "Fifteen", "Sixteen", "Seventeen", "Eighteen", "Nineteen"]
        self.tens = ["", "", "Twenty", "Thirty", "Forty", "Fifty", "Sixty", "Seventy", "Eighty", "Ninety"]

    def convert_to_words(self, number):
        if number == 0:
            return "Zero"
        elif number < 10:
            return self.units[number]
        elif 10 <= number < 20:
            return self.teens[number - 10]
        elif 20 <= number < 100:
            return self.tens[number // 10] + (" " if number % 10 == 0 else " " + self.units[number % 10])
        elif 100 <= number < 1000:
            hundreds = self.units[number // 100] + " Hundred"
            remainder = number % 100
            if remainder == 0:
                return hundreds
            else:
                return hundreds + " " + self.convert_to_words(remainder)

# Example usage
number = 150
converter = NumberToWordsConverter()
print(f"The number {number} in words is:", converter.convert_to_words(number))
```

Overall Score : 5/5 (Promoted)

Interview

Interviewed on : 16-Nov-2024 02:00 PM

Interviewd by : Pratap

Interview Summary

Personal	3.0
Professional	2.0
Python	3.0
Challenges	2.0
Average interview rating	2.5

Question wise rating:

Personal	
Talk about your self-covering your education, trainings and motivation for work ?	2
What is your strengths and weaknesses?	4
Why do you need a job?	2
Why you were not hired in the campus?	3
Why are not going for further higher studies ?	4
Average rating	3.0

Professional	
Why do you think you are suitable for software developer role?	2
Average rating	2.0

Python	
Explain me little bit about in which kind of projects Python is useful?	3
Can we develop desktop applications using python ?	2
Talk few most used libraries of python ?	4
Average rating	3.0

Challenges	
What is the toughest thing for you?	2
Average rating	2.0

Interviewer Remarks:

Candidate is god

Interviewer's Feedback:
